

## **My one ball Kauni journey.**

*My journey began when I saw Kauni yarn in the internet and has fallen in love instantly with the look. As every passionate knitter I needed to try it. I haven't decided yet what to knit but I needed to try it. Once I've received my first ball I realized that it's better to do the project in one piece to preserve yarn colourways. And I've decided to start with a skirt....*

### **Description**

Multicolor zigzag skirt - neck warmer - cushion knit in the round.

Size for skirt Small to Medium.

### **Abbreviations**

Sts - stitch, K - knit, yo - yarn over, k2tog - knit two together, skp - slip, knit, pass slipped stitch over, WS - wrong side, RS - right side

### **Knitted measurements**

**before felting:** Hips - 90-100 cm, length - 42 cm

**after felting:** width - 33.5 cm, length - 27 cm

### **Materials**

1 ball (150g each ball) of Kauni 8/2 Effectyarn. Wool 100%.

Yardage: 100g = 400m

1 pair of size 3 (3mm) circular needles OR SIZE TO OBTAIN GAUGE

Yarn markers.

### **Gauge**

23 sts and 24 rows = 10 x 10 cm square using size 3 (3mm) needles

### **Notes. Please read.**

The skirt is made in one piece on circular needles.

Yo is knitted as a twisted knit sts (or knit through back loop) on every second row to avoid holes.

### Rainbow cushion.

To make a cushion reverse piece on WS, fold it and sew on the bottom to the end and the opposite side leaving unsowed 10 cm.

Fill in with preferred filing. If using beans put them in a plain cotton pillowcase before inserting into your rainbow cushion cover. Sew on opened 10 cm to close the cushion.

Tip: You can make a cushion after you're tired of wearing the neckwarmer. In this case make your WS - the face of the cushion and you'll hide all the wears and tears inside.

### Felted neckwarmer.

*I've decided that I didn't experiment enough and I needed something more...  
Yep, felt it...*

To felt I washed it twice on 40 degrees in a front loader washing machine with a detergent and fabric softener. Felted so nicely you cannot see the stitches at all. The result is below

The felted garment is soft, nice and colourful. I loved it so much that I stopped at this point....

*Though I still had one more idea for the yarn. Perhaps you are the one who try it.*

### Felted bag.

Reverse a piece to WS. Fold it as shown on the picture and sew on the bottom. Reverse back, cut felt across the black line as shown on the picture to form handles. It's safe if you felted it nicely. And you're ready to go...

This is the end of my One ball Kauni journey... and at the same time the beginning of another ball... I really enjoyed it. Hope you will enjoy it too.
